

Hotel recommendations

Two Hotels are situated in the direct neighbourhood on the Campus and offer the possibility of early reservations for special symposium conditions.

Please note the following: In the meantime, the City of Berlin had the fabulous idea to collect a City Tax for hotel accommodation of tourists: 5% added to the usual price. For business purposes this tax will not be required, but a corresponding declaration about the business character of the trip (which will be the case here) is needed. Either you send it to the hotel by fax or you may deposit it at the reception desk of the hotel. A pdf file of the declaration in German can be downloaded from [here](#).
